

Recommendation approved by Claygate Parish Council on 20 November 2025:

*That the Parish Council conveys to EBC its support for those bidders who:*

- *Enhance and extend the provision of services at the Centre to support all those in Claygate and the surrounding areas who are socially isolated, have poor physical or mental health and their carers, and those experiencing financial hardship*
- *Demonstrate experience of running a Community Hub which meets the needs of vulnerable people of all ages*
- *Ensure the continuation and development of Dementia Services at the Claygate Centre*
- *Fill the gaps in provision identified in the Claygate The Way Forward report (ie. the provision of a Warm Hub facility and food support for those in financial hardship) and avoid duplication of provision within Claygate*
- *Have a governance structure that incorporates local representation and takes full account of the voice and needs of the Claygate community and which will be resilient to the challenges of Local Government Reorganisation*
